4. Technological maturity – TRL
5. Why OUTSCALE & DASSAULT SYSTEMES ?

# APPLICATION TEMPLATE

**Format** : your choice (PowerPoint, Word, etc.)

**Deadline** : November 9, 2026 at 11:59 PM

## Application process:

- Once your application document is ready and includes all the information requested in this template, complete [the application form](#) by uploading your application document, your Kbis extract or equivalent document, your company logo, and a declaration on honour confirming that your company is up to date with its tax and social security obligations ;
- Documents may be sent separately by email (openinnovation@capdigital.com) before the application deadline if file sizes are too large. Completing the application form remains mandatory.

**\* Important** : this template provides a response framework. It contains the mandatory information required to evaluate your proposal and may be adapted if desired.

# PROJECT OWNER

## Information about the project owner's organisation

- Startup name
- Website
- Year founded
- Location
- Number of employees
- Founders / Management team
- Sector: Health / Finance
- Maturity stage: MVP / Commercialization / Scale-up
- Key figures: Revenue, number of clients, fundraising, etc.
- Primary contact

# THE PROJECT

## Product and Market

- What problem are you addressing?
- What solution do you offer?
- Which customers/markets do you target? (B2B, B2C...?)
- What is your business model?
- What are your main references/achievements to date?

# THE PROJECT

## Technology and Differentiation

- What are the main technologies used?
- Do you use AI? If yes, how?
- What cloud infrastructure do you currently use?
- What are your cloud and GPU resource needs?
- Do you have sovereignty, security, compliance, or data-hosting requirements?
- What is your main technological advantage?
- How does your solution differ from competing solutions?

# THE PROJECT

## Technological Maturity - TRL

- What elements justify this maturity level? (prototype, MVP, real-world testing, commercialized product, etc.)
- Has your solution already been tested or deployed with customers/users?
- Have you conducted any POCs/pilots? If yes, with what results?
- What TRL level do you aim to reach within the next 12 months?

# THE PROJECT

## Why OUTSCALE & Dassault Systèmes?

- Why would you like to join this initiative?
- What are your main needs?
- What do you expect from the support provided by OUTSCALE and Dassault Systèmes?
- Which project or use case would you like to develop through this support?

# THE PROJECT

## Impact

- What is the social and/or environmental impact of your solution?
- How do you measure, or plan to measure, this impact?
- Does your solution help make healthcare or finance more accessible, responsible, secure, or sustainable
